OSINT FIELD GUIDE

A reference catalogue of open-source intelligence resources

33 category sheets · 1,085 catalogued tool entries

Designed for OSINT research, learning, and tool-reference workflows.

How to use this PDF

Use the category index to find the relevant section. Each category table lists the tool, type/notes, URL, instructions, India compatibility, verification status, and last-checked date. The Excel version is better for filtering and editing.

Data quality note: Tool availability and India compatibility have not been independently live-verified during conversion. Check current availability, terms, local law, and authorization before using any resource.
